

# **WORLD PROJECTS PRO – Executive Summary**

## **Who We Are**

WORLD PROJECTS PRO acts as a Strategic Financial Architect, structuring projects into bank-ready formats and enabling access to institutional credit, insurers, and banks.

## **What We Do**

- Structuring & Compliance: Converting raw projects into compliant, documented, and risk-mapped opportunities.
- SBLC / BG Advisory: Supporting legitimate bank-to-bank issuance models, not grey-market structures.
- Credit Insurance Integration: Filing and coordinating with international credit insurers (e.g. ATIDI, Allianz Trade, ECI, Credit Oman).
- Investor/Bank Engagement: Positioning projects with institutions that require professional documentation.

## **Key Value**

- Bankability: Without proper structuring, no investor or insurer will engage.
- Compliance: KYC, AML, and international banking standards fully integrated.
- Transparency: No upfront promises of money; our work is service-based with clear deliverables.

## **Fee Framework**

- Retainer Fee (non-refundable): For preparing the Bankable Package.
- Success Fee (upon financing): % of final financing arranged.
